About Roca

Roca is a family business dedicated to the design and production of solutions for the bathroom space. Since our origins in Barcelona in 1917, the constant excellence in the manufacture of sanitary ware has made us a world leader in the development of bathroom products. We currently have 77 production plants on five continents, more than 21,500 employees and presence in more than 170 markets.

Design is present in all our activities. Our team of engineers and design experts work on the development of innovative bathroom products and collaborate with the best designers to create emblematic collections. Our state-of-the-art facilities and large production capacity allow us to manufacture our products with maximum efficiency, making them reach architects, installers and customers in all corners of the planet very quickly. This has placed us in a position of global leadership.

We are committed to making our design and production processes more sustainable, always taking care of the well-being of our employees and the communities in which we operate. We are a company with global reach, but at the same time we have managed to maintain our essence of family business close to its roots in Barcelona.

The know-how and mastery of our global network of professionals, together with our experience of more than 100 years in the sector, allow us to create innovative and functional bathroom spaces that improve the standard of living and well-being of our customers.

At Roca,
our goal is to ensure that
people enjoy the best experience
in the bathroom space.

German Certificate of Quality awarded by LGA (Landesgewerbeanstalt Bayern) certifying that the brassware complies with the requirements laid down in the relevant German DIN standards.

China Certificate of Quality awarded by National Quality Technical Inspection Bureau certifying that the vitreous China complies with the requirements laid down in the relevant Chinese standards.

To maintain product quality and consistency, Roca applies the same stringent production criteria across its 65 manufacturing centres in the world which won Roca the ISO9001 certificate. With high quality, best guarantee and innovative design, Roca's products won the hearts of many famous property developers throughout the world. Roca has completed many famous projects all over the world ranging from landmark buildings, luxurious residential projects and star hotels.

Commitment to the Environment

Roca as a leading company in the definition of bathroom space, works on developing and promoting technologies and initiatives that help conserve the environment.

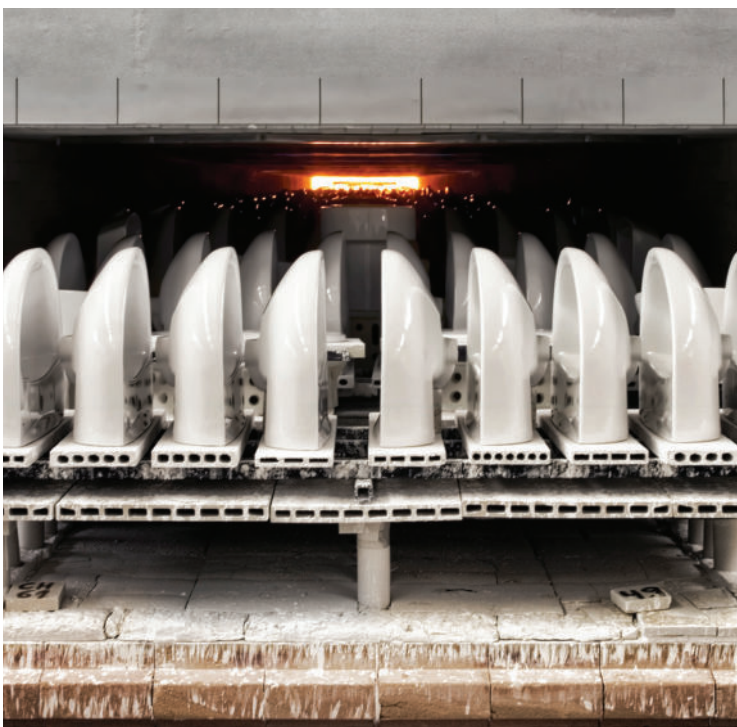

As part of this commitment we have created “Roca loves the planet” concept, which involves both the production processes in our factories and our product development, not to mention the company’s social actions.

Eco-click water saving sytem:
Single lever faucets allows to cut water consumption by up to 50%

Dual flush system:
Eco-friendly technologies for saving the water and energy. With the dual flush system you can save till 50% of water.

Sustainable production processes
25% reduction of CO2 emissions and
Our Zero Waste Programme.

Design & Innovation

The Roca Design Centre collaborates with the most prestigious architects and designers in the development of our products to research human needs, habits and behaviour. Has been honored with the FAD Prize and the Design Managment Europe Award in recognition of Roca’s record in promoting industrial design.

In 2006, the company created Roca innovation Lab, a centre of international reference in the field of research and innovation.

London Gallery designed by Zaha Hadid

Roca Galleries

Built with the principles of design, innovation and sustainability in mind, Roca Galleries clearly show-case the leading add global brand's commitment to an ongoing discourse with society as a whole, but more specifically with professionals who share an interest and concern in cultivating the bathroom concept.

Better design, maximum hygiene

We do not usually look inside a WC. However, one of Roca's latest innovations can be found there, in the design of a new rimless bowl with a smooth and fully accessible inner surface to make cleaning much easier.

Easy Cleaning.

By removing the channel where the flushed water flows, the inner walls of the bowl are uniform, with no nooks or gaps where dirt might build up.

Enhanced Flush.

Roca's Rimless technology features a new water distributor that propels a stronger flush, spreading it homogeneously throughout the entire bowl.

Rimless Technology by Roca

Conventional WC

WC with Rimless technology by Roca

Splash-Free.

Both the design of the bowl and the water propulsion system have been conceived to achieve a maximum efficiency flush, preventing water from splashing outside the bowl.

Larger Clean Area.

The new design of the bowl includes a slight upper ridge that allows water to flow upwards, cleaning the entire surface, above the standards required by the European Union.

Ruy Ohtake

by *Ruy Ohtake*

39

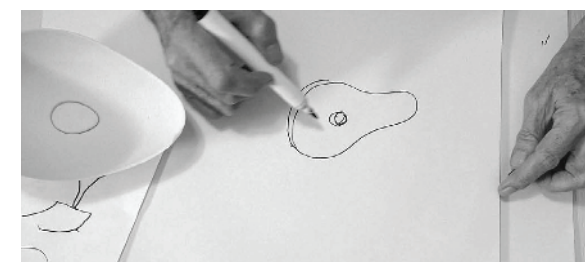

Ruy Ohtake's collection is an example of Roca's historic vocation of collaborating with the most prestigious international architects and designers in the joint development of exclusive Collection and other internationally acclaimed projects.

reddot award 2019
best of the best

The 'Best of the best' award is the most important prize at the Red Dot Design Award, the most prestigious international design competition.

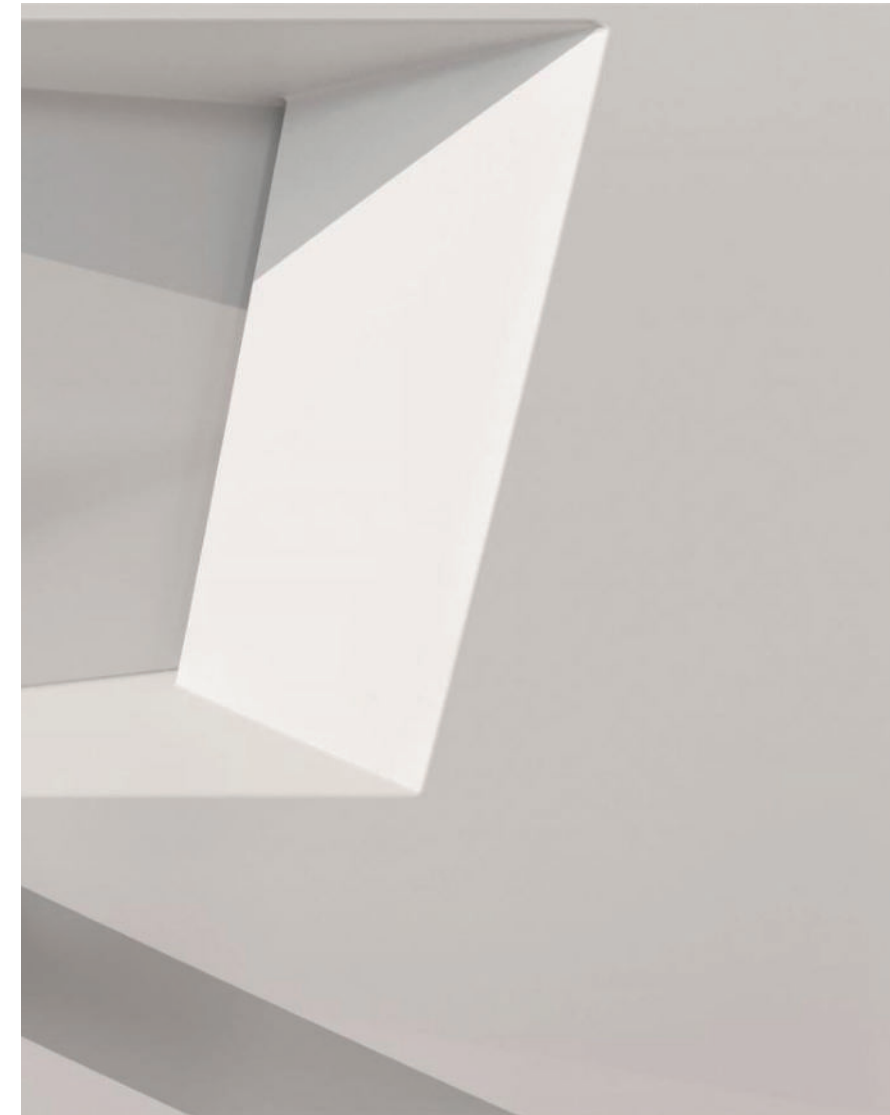

40

Horizon

by *João Armentano*

The architect João Armentano signs the Horizon collection, which expresses his view of cities, geometry and the play of shadows and lights. The collection consists of numerous unique models of countertop basins and is available in gloss and matte finish.

reddot winner 2021

The Horizon Geometric and Horizon Skyline 80 models were recognized for their unique design and won the Red Dot Design Award, in the Product Design category and iF Award also in the Product Design category.

Smart Shower

Raindream built-in shower-head, 3 puzzle jets, Stella stick square hand-shower, satin PVC flexible hose and bracket for handshower with integrated water inlet.

Ref. ASD124AC00 350 x 350 mm

Rp 87,427,000,-

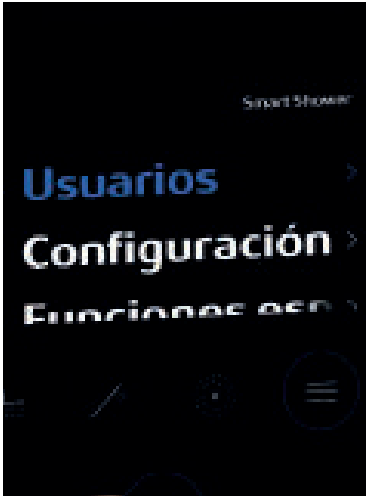

Intuitive Use.

Its capacitive technology and the ergonomic design of its rotating controls make the Smart Shower very user-friendly. Moreover, as its buttons light up when touched, its use is very intuitive, even for children or the elderly.

Fully Customizable.

Tell the Smart Shower how you want your daily shower to be. Indicate the temperature, the flow rate and water outlets and it will save your preferences in your app's profile and make your life easier.

Self-Cleaning.

The Smart Shower has a cleaning program that activates all water outlets, releasing an intermittent high-pressure flow of water to remove lime and impurities, which build up in pipes and jets.

Ultrafine Design.

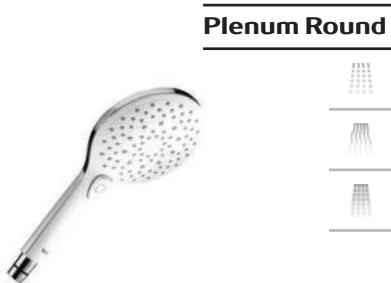

The control panel barely sticks out from the wall thanks to its 12 mm thick profile.

Handshowers
