SEE

With GROHE SPA we see the beauty and sophistication. We strive to create appealing and outstanding products. Health comes through water and the beauty of water has always been our inspiration. Nature works to refine and evolve the skeleton of what we do. Like nature we set the task of creating new experiences. We simply take our time and enjoy what we perceive through those experiences.

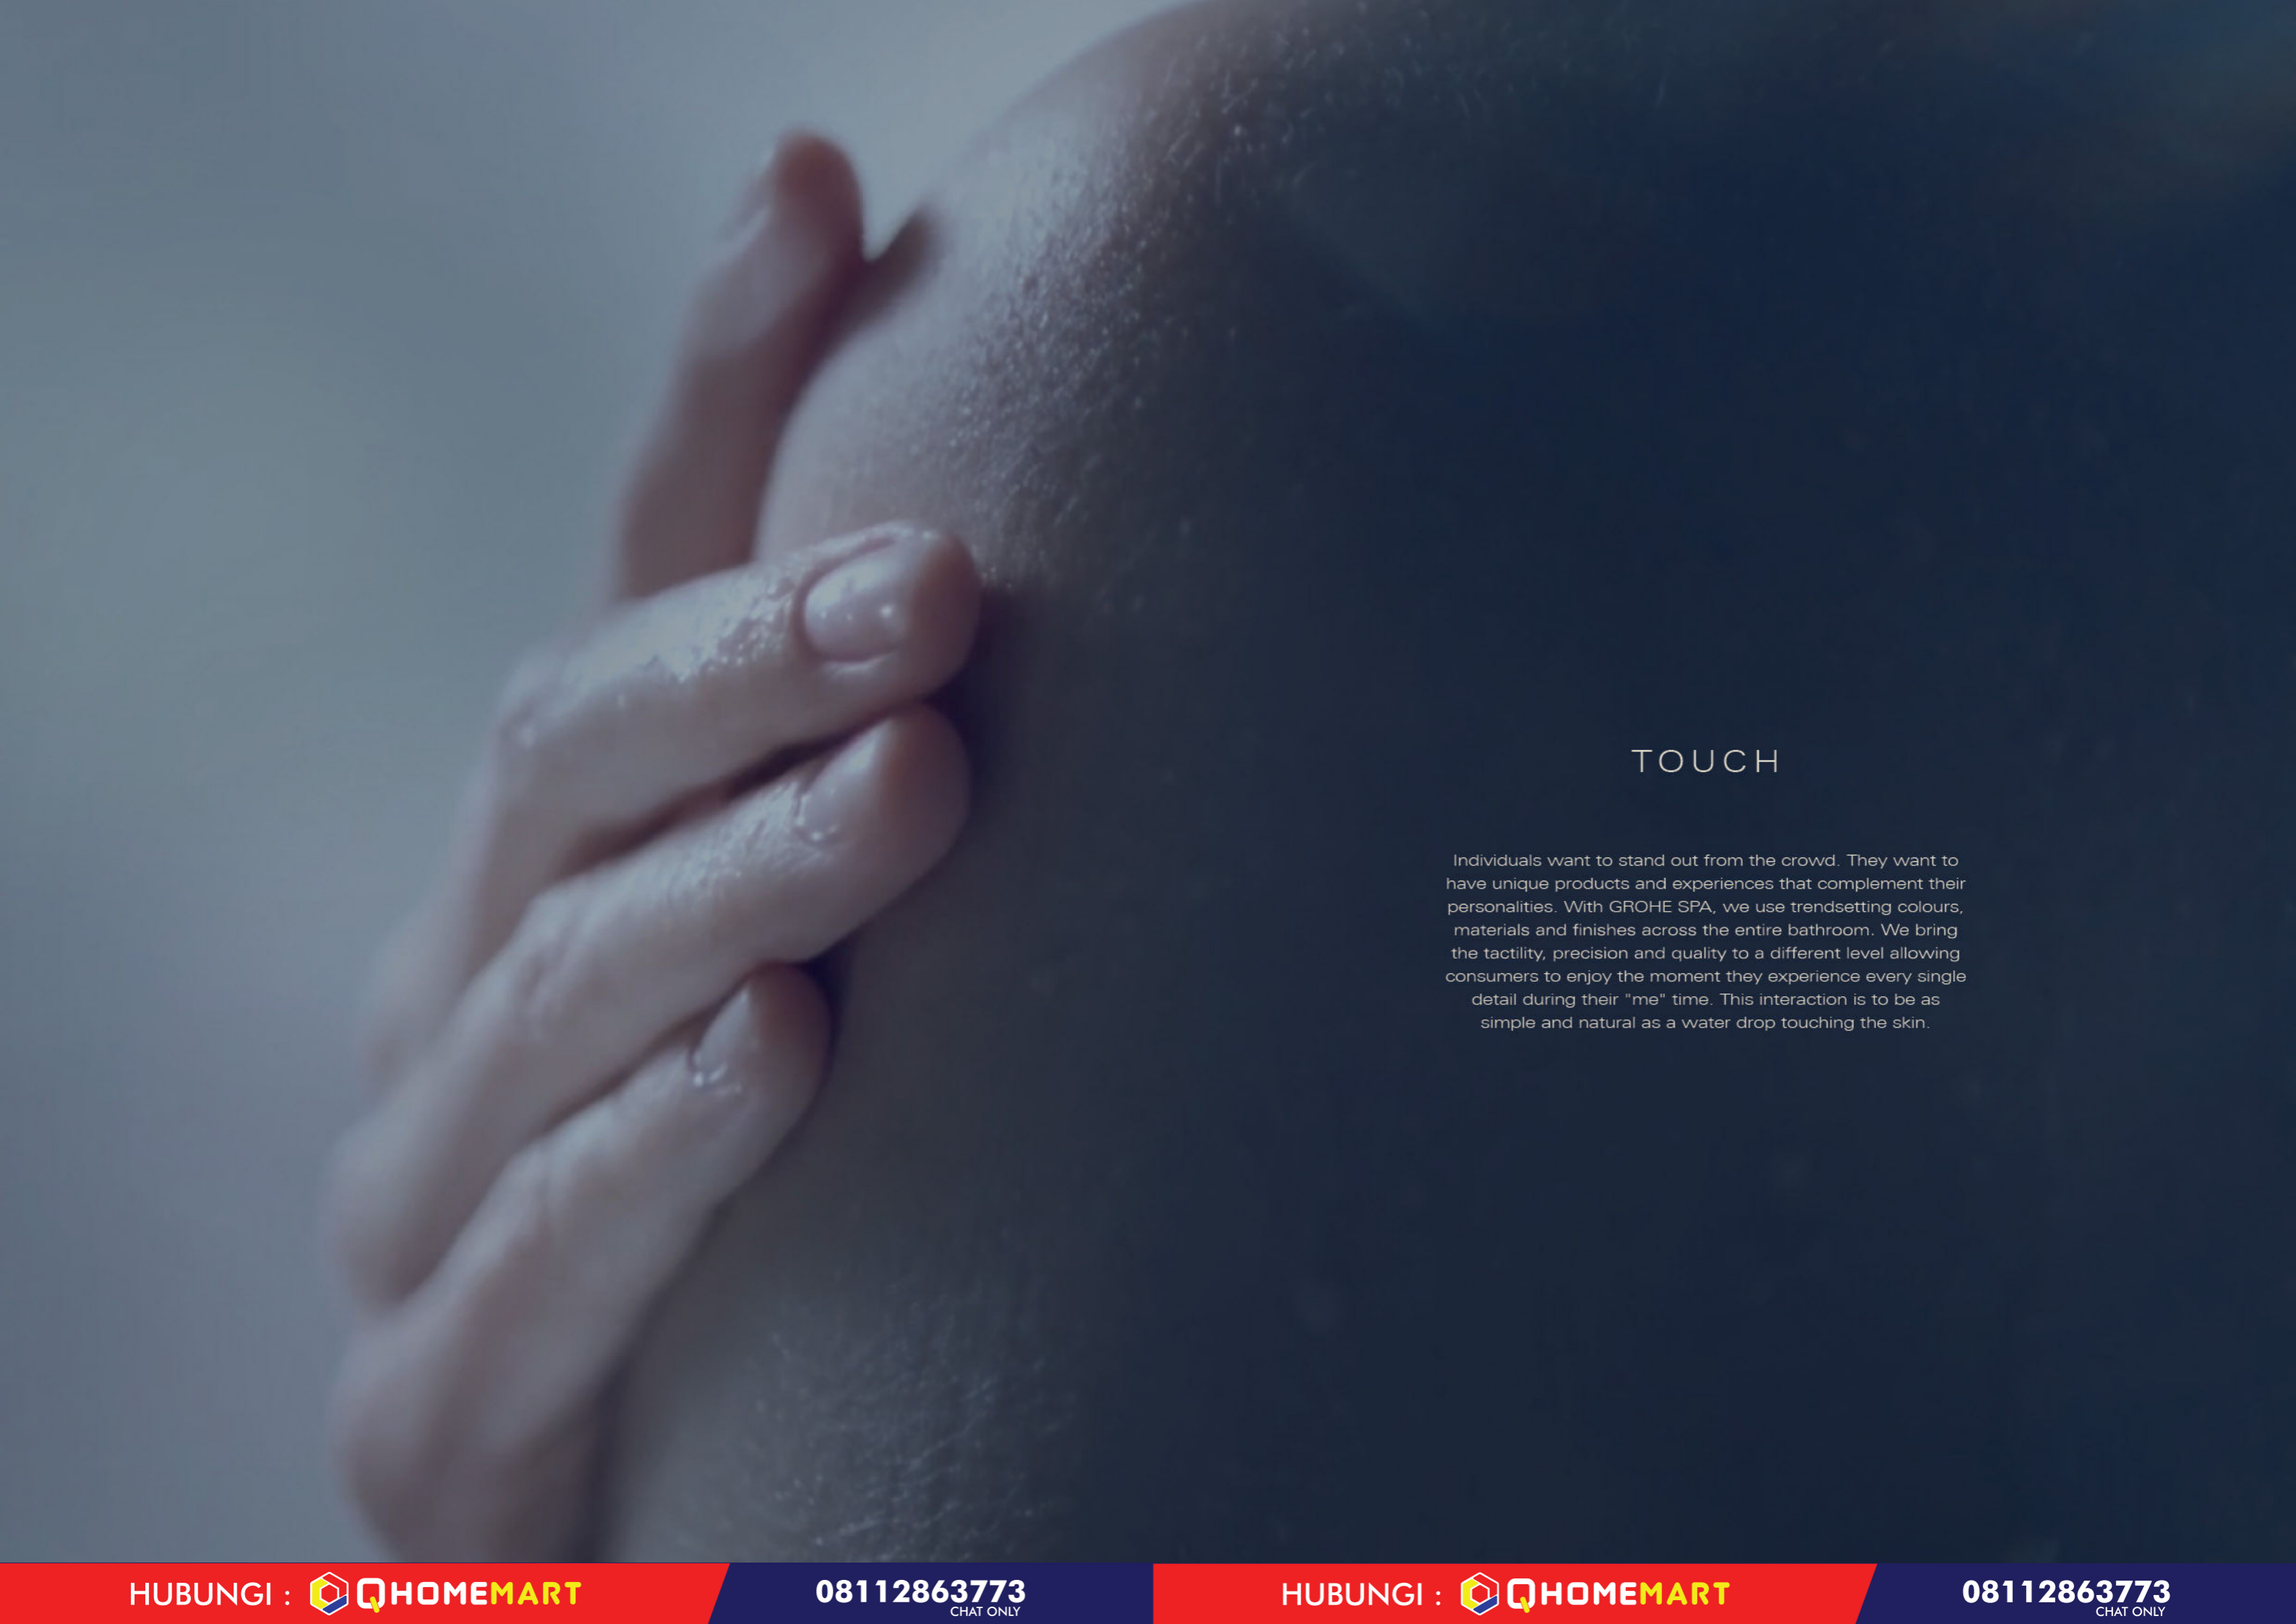

HEAR

The sound of a powerful waterfall, the sound of the wind, a music that gives goosebumps. These are the things we enjoy hearing. But also the sound of water falling from a GROHE SPA product, the subtle feedback you get when you switch between spray types. All those sound details are precisely designed with the GROHE SPA products.

SMELL

Smell triggers strong memories and brings different emotions into our body, mind and soul. In Health & Wellbeing, it's known that the scent of flora like eucalyptus and lavender represent healing and relaxation. We make those fragrances part of our GROHE SPA experience and introduce them through our customer journey.

TOUCH

Individuals want to stand out from the crowd. They want to have unique products and experiences that complement their personalities. With GROHE SPA, we use trendsetting colours, materials and finishes across the entire bathroom. We bring the tactility, precision and quality to a different level allowing consumers to enjoy the moment they experience every single detail during their "me" time. This interaction is to be as simple and natural as a water drop touching the skin.

TASTE

The hot beverage ceremony has always been a part of a GROHE SPA experience. When we bring health through water we don't do it only through a showering experience. Holding a warm cup of tea, inhaling the hot steam and taking a sip, also brings wellbeing by calming the inner-self and lets you connect to your mind and spirit.

We can achieve this with our water systems, customer journey and in our dedicated GROHE SPA environments.

THE MAGIC IS
IN THE POWDER

GROHE ICON 3D

GROHE, as a pioneer in the sanitary industry, has set a real milestone for future living concepts. Embracing the innovative technology of 3D metal-printing, GROHE's designers and engineers are pushing the boundaries of bathroom design.

CELEBRATING WATER
AS A VISUAL EXPERIENCE

GROHE ALLURE BRILLANT ICON 3D

The reduction of the design to an absolute minimum and the emphasis on the pure essence of the shapes not only saves valuable resources, but also offers a new experience of water. The hollow interior of GROHE Allure Brilliant Icon 3D in the familiar silhouette make the water flow look like a magical, optical illusion.

SHAPING THE
FUTURE OF WATER

GROHE ATRIO ICON 3D

The ultra-thin spout of the GROHE Atrio Icon 3D underlines GROHE's ambition to re-think what is possible. The elaborate process of 3D metal-printing defines the exclusivity of the Icon 3D series: Each product is unique, and the edition of the collection is limited to a few pieces per year.
