THROUGH BODY SERIES

Introducing an innovative series from Valentino Gress with Through-Body Vein Technology makes it possible to recreate typical veining of marble and other natural stone that penetrate to the full depths of the tile body. This technology gives our product a unique design feature, having a consistent natural stone veining, from surface to the base of the body.

This Through Body Series has expanded the designer's creative freedom, making all building and furniture projects look more realistic as natural stone in every detail from surfaces, edges and corners. Highly recommended for special furnishing items such as tables tops and high-end kitchen counter tops.

THROUGH BODY SERIES Offers

- Through-Body Vein inspired by nature stone
- Two surface options: Glazed Polished and Satin
- Stain & Scratch Resistance Surface
- Easy Maintenance
