SINTERED STONE SLAB

Man-made stone. It is a slab with stone-like physical and mechanical properties, produced by an advanced sintering technological process of extreme heat and weight.

SINTERING

Sintering is the process of coalescing powdered minerals into a solid mass using heat and pressure without melting to the point of liquefaction and without the use of any artificial binders.

www.quadrasurface.com

ULTIMATE TECHNOLOGY

QUADRA is at the forefront of cutting-edge technology. The techniques of super compacting, sintering, and 3D decorative digital printing are carried out using cutting-edge technologies.

HIGH-TECH MATERIALS COMBINATION

QUADRA combines only high-quality, all-natural raw materials.

CUTTING-EDGE SINTERIZATION

QUADRA is processed under extreme pressure and at an ultra-high temperature using cutting-edge technology. 100% natural and free of resin.

ULTIMATE QUALITY

The innovative natural material is leading the innovation in surfaces with its durability, light weight, zero porosity, and endless selection of colors, patterns, and finish options.

DURABLE

QUADRA provides heat, cold, frost, and humidity resistance. It is sturdier, scratch and abrasion resistant, and easier to handle without breaking.

NON-POROUS

QUADRA is non-porous. It has a zero absorption level, making it stain-resistant and providing no area for germs to grow. It is simple to clean and maintain and is resistant to harsh chemicals such as detergents and cleaning agents.

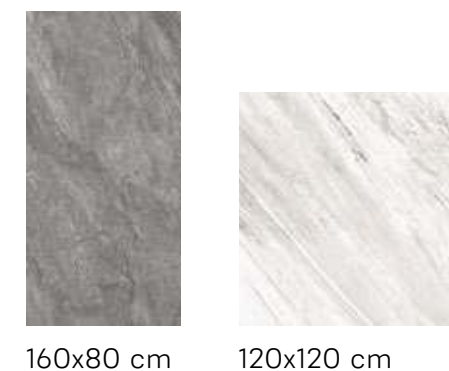

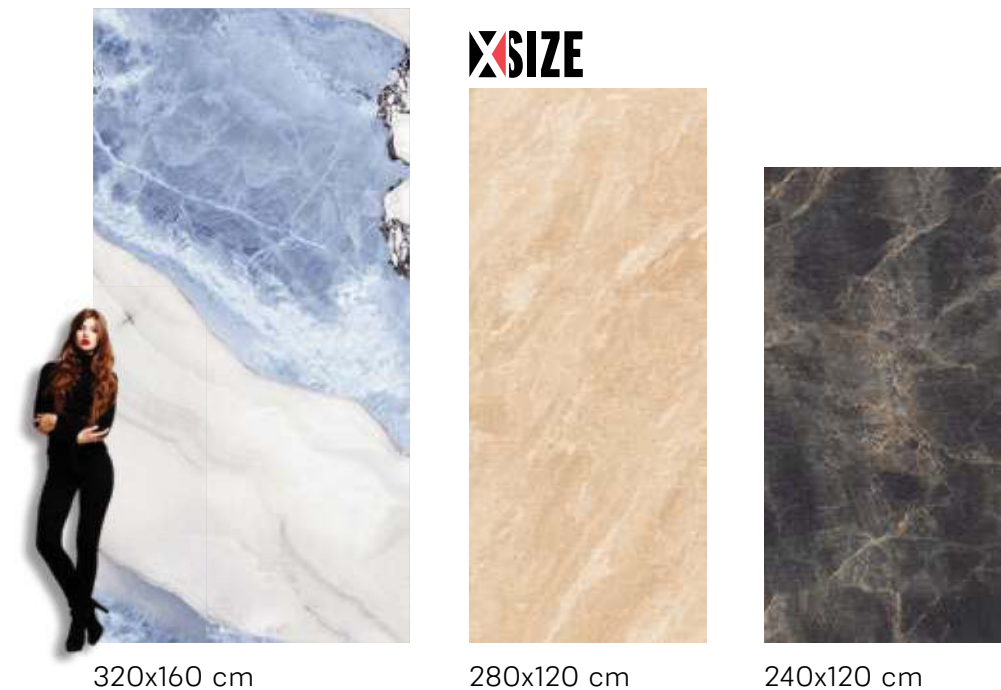

ALL NATURAL

QUADRA is resin-free, it does not deteriorate in the sun, and it does not release harmful substances.

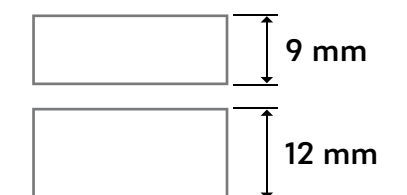

ULTIMATE SIZE

The cutting-edge technology of QUADRA allows it to manufacture sintered stone slabs in a wide variety of sizes, from **120 x 120cm**, **160 x 80cm**, **240 x 120cm**, **280 x 120cm**, **320 x 160cm**, for use on the interior or exterior of high-end structures.

The extra-large sintered stone slab will result in a magnificent wall appearance as well as a clean, seamless floor with few grout lines. The extra-large sintered stone slab can also handle more demanding applications, including kitchen countertops, bathroom vanities, and tabletops.

Thicknesses :

ULTIMATE DESIGN SURFACE

Due to its design and performance features, we can instantly identify the sintered stone as part of the interior design, despite the fact that it is also utilized on the exterior of the building. Common interior installations include new or renovated walls, floors, and other surfaces where high design and high durability are paramount. In this area, sintered stone is being used in highly inventive ways to communicate the architectural goals of well-known architects.

The design possibilities of using striking book-match or end-match effects of sintered stone slabs with veined patterning, such as those found in marble or other stones, are particularly noteworthy. The challenge in acquiring true matching panels to install when utilizing natural stone for those purposes is due to the randomness of the veining. Since the sintered stone panels are manufactured, however, the veining and patterns can be very precisely controlled to achieve very dramatic and artistic looks.

BREATHTAKING ENDMATCHED AND BOOKMATCHED EFFECTS

Endmatch Special
Features :

XLOOP
AND **XLOOP³⁶⁰**

ULTIMATE FINISHING

QUADRA slabs are available in high gloss, three looks of matte, and two looks of rough finishes to emulate the full range of natural material appearances.

Special Finishes :

XGRIP
AND XGRIP⁺

XGRIP

XGRIP⁺

SHINY POLISHED

After passing through polishing wheels with water and polishing compound, the surface is highly polished, creating a mirror-like shine that is identical or smoother than naturally polished rock.

LUXURIOUS MATTE

A slightly reflecting matte finish with a texture that feels like luxury fine grain leather.

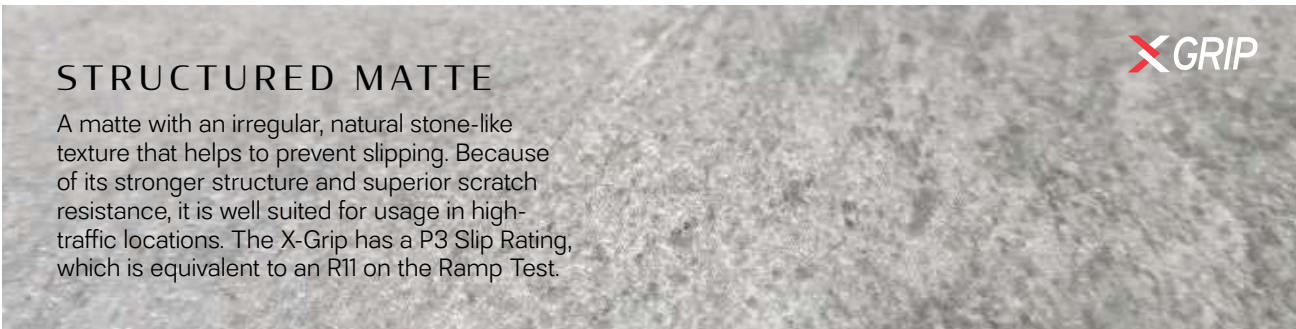

ORIGINAL MATTE

Minimal reflection and a matte finish with a delicate sandblasted texture.

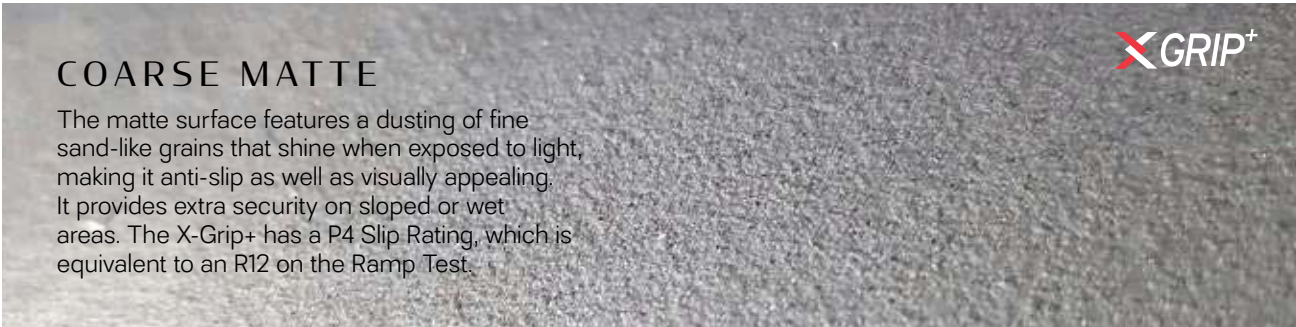

LITE MATTE

A silky-soft surface with a faint sheen and a pleasant soft touch that is reminiscent of human skin.

STRUCTURED MATTE

A matte with an irregular, natural stone-like texture that helps to prevent slipping. Because of its stronger structure and superior scratch resistance, it is well suited for usage in high-traffic locations. The X-Grip has a P3 Slip Rating, which is equivalent to an R11 on the Ramp Test.

COARSE MATTE

The matte surface features a dusting of fine sand-like grains that shine when exposed to light, making it anti-slip as well as visually appealing. It provides extra security on sloped or wet areas. The X-Grip+ has a P4 Slip Rating, which is equivalent to an R12 on the Ramp Test.

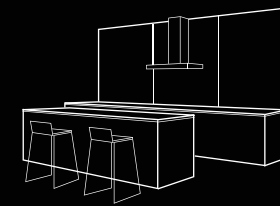

ULTIMATE VERSATILITY

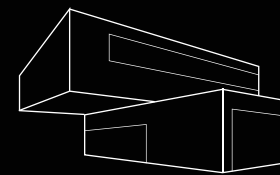

QUADRA is able respond to changing architectural and design requirements, providing application solutions that would otherwise be impossible. Not limited to wall and floor claddings, QUADRA can be cut and worked in different ways, depending on the project at hand, and used in a multitude of imaginative applications thanks to fabrication. QUADRA can be used as a skin of furniture, a countertop, or a tabletop. It is possible to create furniture entirely out of QUADRA, such as a kitchen island or a sofa. It is also possible to make organic shapes or one-of-a-kind ornaments. The only limitation is the imagination.

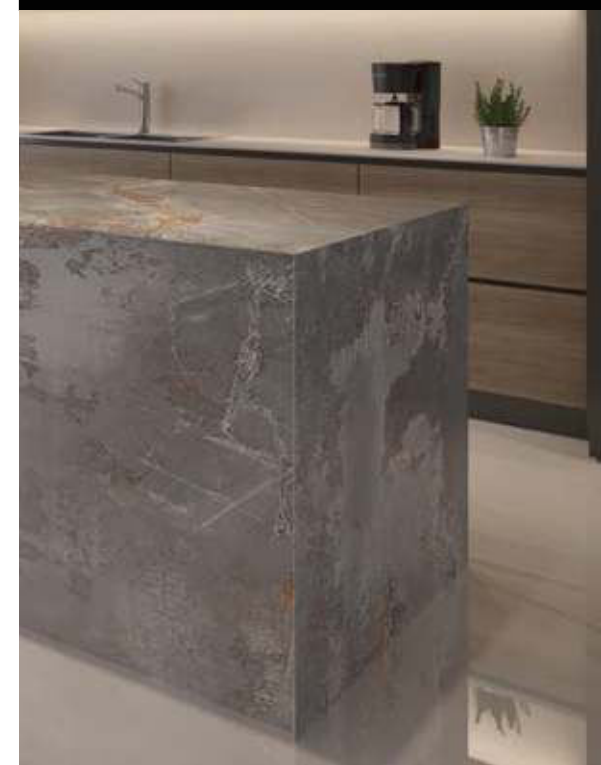

INTERIOR
FLOOR & WALL

FURNITURE &
COUNTERTOP

EXTERIOR

PERFECT COUNTERTOP

QUADRA is a breakthrough material made from 100 percent natural materials and has been sintered with the latest technology, making it very compact and durable. These advantages combine with beauty, making QUADRA a functional material that can be used for floors, as siding for interior and exterior walls, and countertops.

When used as a countertop, QUADRA contributes to the overall aesthetic of the room. The significance of the QUADRA countertop to the atmosphere of the space comes from the designs and colors. Density, strength, scratch and abrasion resistance, as well as non-absorbent qualities that make it simple to clean, are the dependable qualities of QUADRA as a countertop.

ULTIMATE FUNCTIONALITY

FIXED FURNITURE

Fixed furniture, such as doors, door covers, and fixed cabinets, is furniture that is fixed to the wall. QUADRA creates fixed furniture that adds ambience and elegance to any space.

LOOSE FURNITURE

Loose furniture is movable furniture that is not attached to a wall or the ground; in other words, furniture in the traditional sense. QUADRA breathes new life into traditional loose furniture. Make regular furniture into works of art.

ULTIMATE EDGES

SHARKNOSE

A sharknose edge can have a dramatic effect, making the worktop appear even thinner and nearly floating above the unit. It also smooths the way your finger to enter the “handle” of a handleless door without obstruction.

FULL-BULLNOSE

The full-bullnose edge creates a smoother, more aesthetically pleasing and ultimately safer countertop edge. However, it is recommended that a countertop with a full-bullnose edge be applied to furniture that is always dry.

MITER

A mitered edge connects two sintered stone slabs by forming a seamless 90-degree edge. To achieve a seamless appearance, the two parts are cut at 45-degree angles and fused together. A mitered edge profile offers the appearance of a thicker slab of stone or granite or merges with a waterfall panel.

STRAIGHT EDGE

Let the countertops be as they are for a traditional and contemporary appearance. The edges can be smoothed out and honed to eliminate sharp corners and make them gently rounded, which appeals to customers seeking a completed but modest feel.

QUADRA FOR COUNTERTOP ADVANTAGES

- 
DURABLE
 QUADRA is the only and first company in Indonesia to use cutting-edge Italian technology. This makes QUADRA durable and strong on many levels.
- 
EASY TO CLEAN
 QUADRA is non-porous. It has a zero absorption level, making it stain-resistant and providing no area for germs to grow.
- 
HIGH TEMPERATURE & FIRE RESISTANT
 QUADRA is able to withstand high temperatures and will not burn when in contact with fire.
- 
SCRATCH-RESISTANT
 QUADRA is highly resistant to abrasions and scratches.
- 
STAIN RESISTANT
 QUADRA is stain resistant and easy to clean. It is also resistant to harsh chemicals such as detergents and cleaning agents.
- 
UV-RESISTANT
 QUADRA does not discolor over time or when exposed to UV light, making it suitable for outdoor application.
- 
FADE RESISTANT
 QUADRA does not need coating and regular polishing. Its beauty lasts for a long time.
- 
100% NATURAL
 QUADRA is manufactured with all-natural materials, contains no toxic or harmful substances.

ULTIMATE LOOKS

QUADRA comes in five varying looks. Marble, Stone, and Quartz are three of them, and they are all inspired by the most gorgeous natural stones. Metal is associated with rusted surfaces that have developed over time and have an aged chromaticism. Metal by QUADRA has an iron-inspired design. Cement, which resembles concrete, is also available. They all have distinct personalities and are beautiful.

8 REASONS TO CHOOSE QUADRA

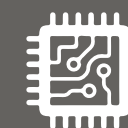

1. INNOVATIVE DESIGN

Nature provides unlimited inspiration, so QUADRA continues to innovate and develop in terms of design, including colors, patterns, and finishes. More and more options make it easier for you to create the space you desire.

2. EXTRA LARGE SIZES

QUADRA is available in three large formats: 240 x 120 cm, 160 x 80 cm, and 120 x 120 cm. Its largest format is 320 x 160 cm. It also has one new format, 280 x 120 cm. QUADRA comes in two thicknesses, 12 mm and 9 mm. This wide range of options translates to more regularity and consistency in the various spaces, making them easier to manage and reducing the number of joints, which has aesthetic and hygienic benefits.

3. ITALIAN TECHNOLOGY

QUADRA is recognized as the superior sintered stone manufacturer in Indonesia. QUADRA is the only and first company in Indonesia to use cutting-edge Italian technology as well as European-standard raw materials. Every step of the manufacturing process is carried out in accordance with international standards.

4. VERSATILE APPLICATION METHOD

QUADRA comes in two thicknesses, 12 mm and 9 mm, for vertical and horizontal application on walls and floors. Vertical cladding can be done by attaching QUADRA using adhesive or using Visible Mechanical Fastening Fixation (VMF) – similar to glass curtain wall application.

5. EASY TO CLEAN

QUADRA is non-porous. It has a zero-absorption level, making it stain-resistant and providing no area for germs to grow. It is easy to clean and maintain. It does not need to be coated or regularly polished.

6. MAXIMUM STRENGTH & DURABILITY

QUADRA is 100% natural; its colors do not fade when exposed to sunlight or other harsh weather. It does not burn or produce smoke or hazardous compounds when in contact with fire or high temperatures. Scratch and abrasion resistance is provided by its hard surface. It is also waterproof and liquid-resistant.

7. ENVIRONMENTALLY SUSTAINABLE

QUADRA uses the harvested rainwater for the manufacturing process. To reduce emissions, natural gas is used to generate heat during the sintering process. The use of all-natural materials ensures that no toxic or dangerous substances are contaminated during production.

8. MADE IN INDONESIA

QUADRA is the pride of Indonesia. The facility of QUADRA is in Indonesia and employs local workers. QUADRA is manufactured to international standards in order to make products of international excellence.

ULTIMATE MARBLE

TIMELESS LUXURY

Marble has a timeless elegance that may offer a sense of elegance to any space as well as the exterior surface of a structure. The QUADRA Marble collection reflects the most fascinating natural marbles from throughout the world, from colors to veins.

320X160 CM

COLOR SHADE VARIATION GUIDE :

V1 - Uniform

Minimal differences between pieces of the same production run.

V2 - Slight

Clearly distinguishable differences in texture and/or pattern, with similar colors.

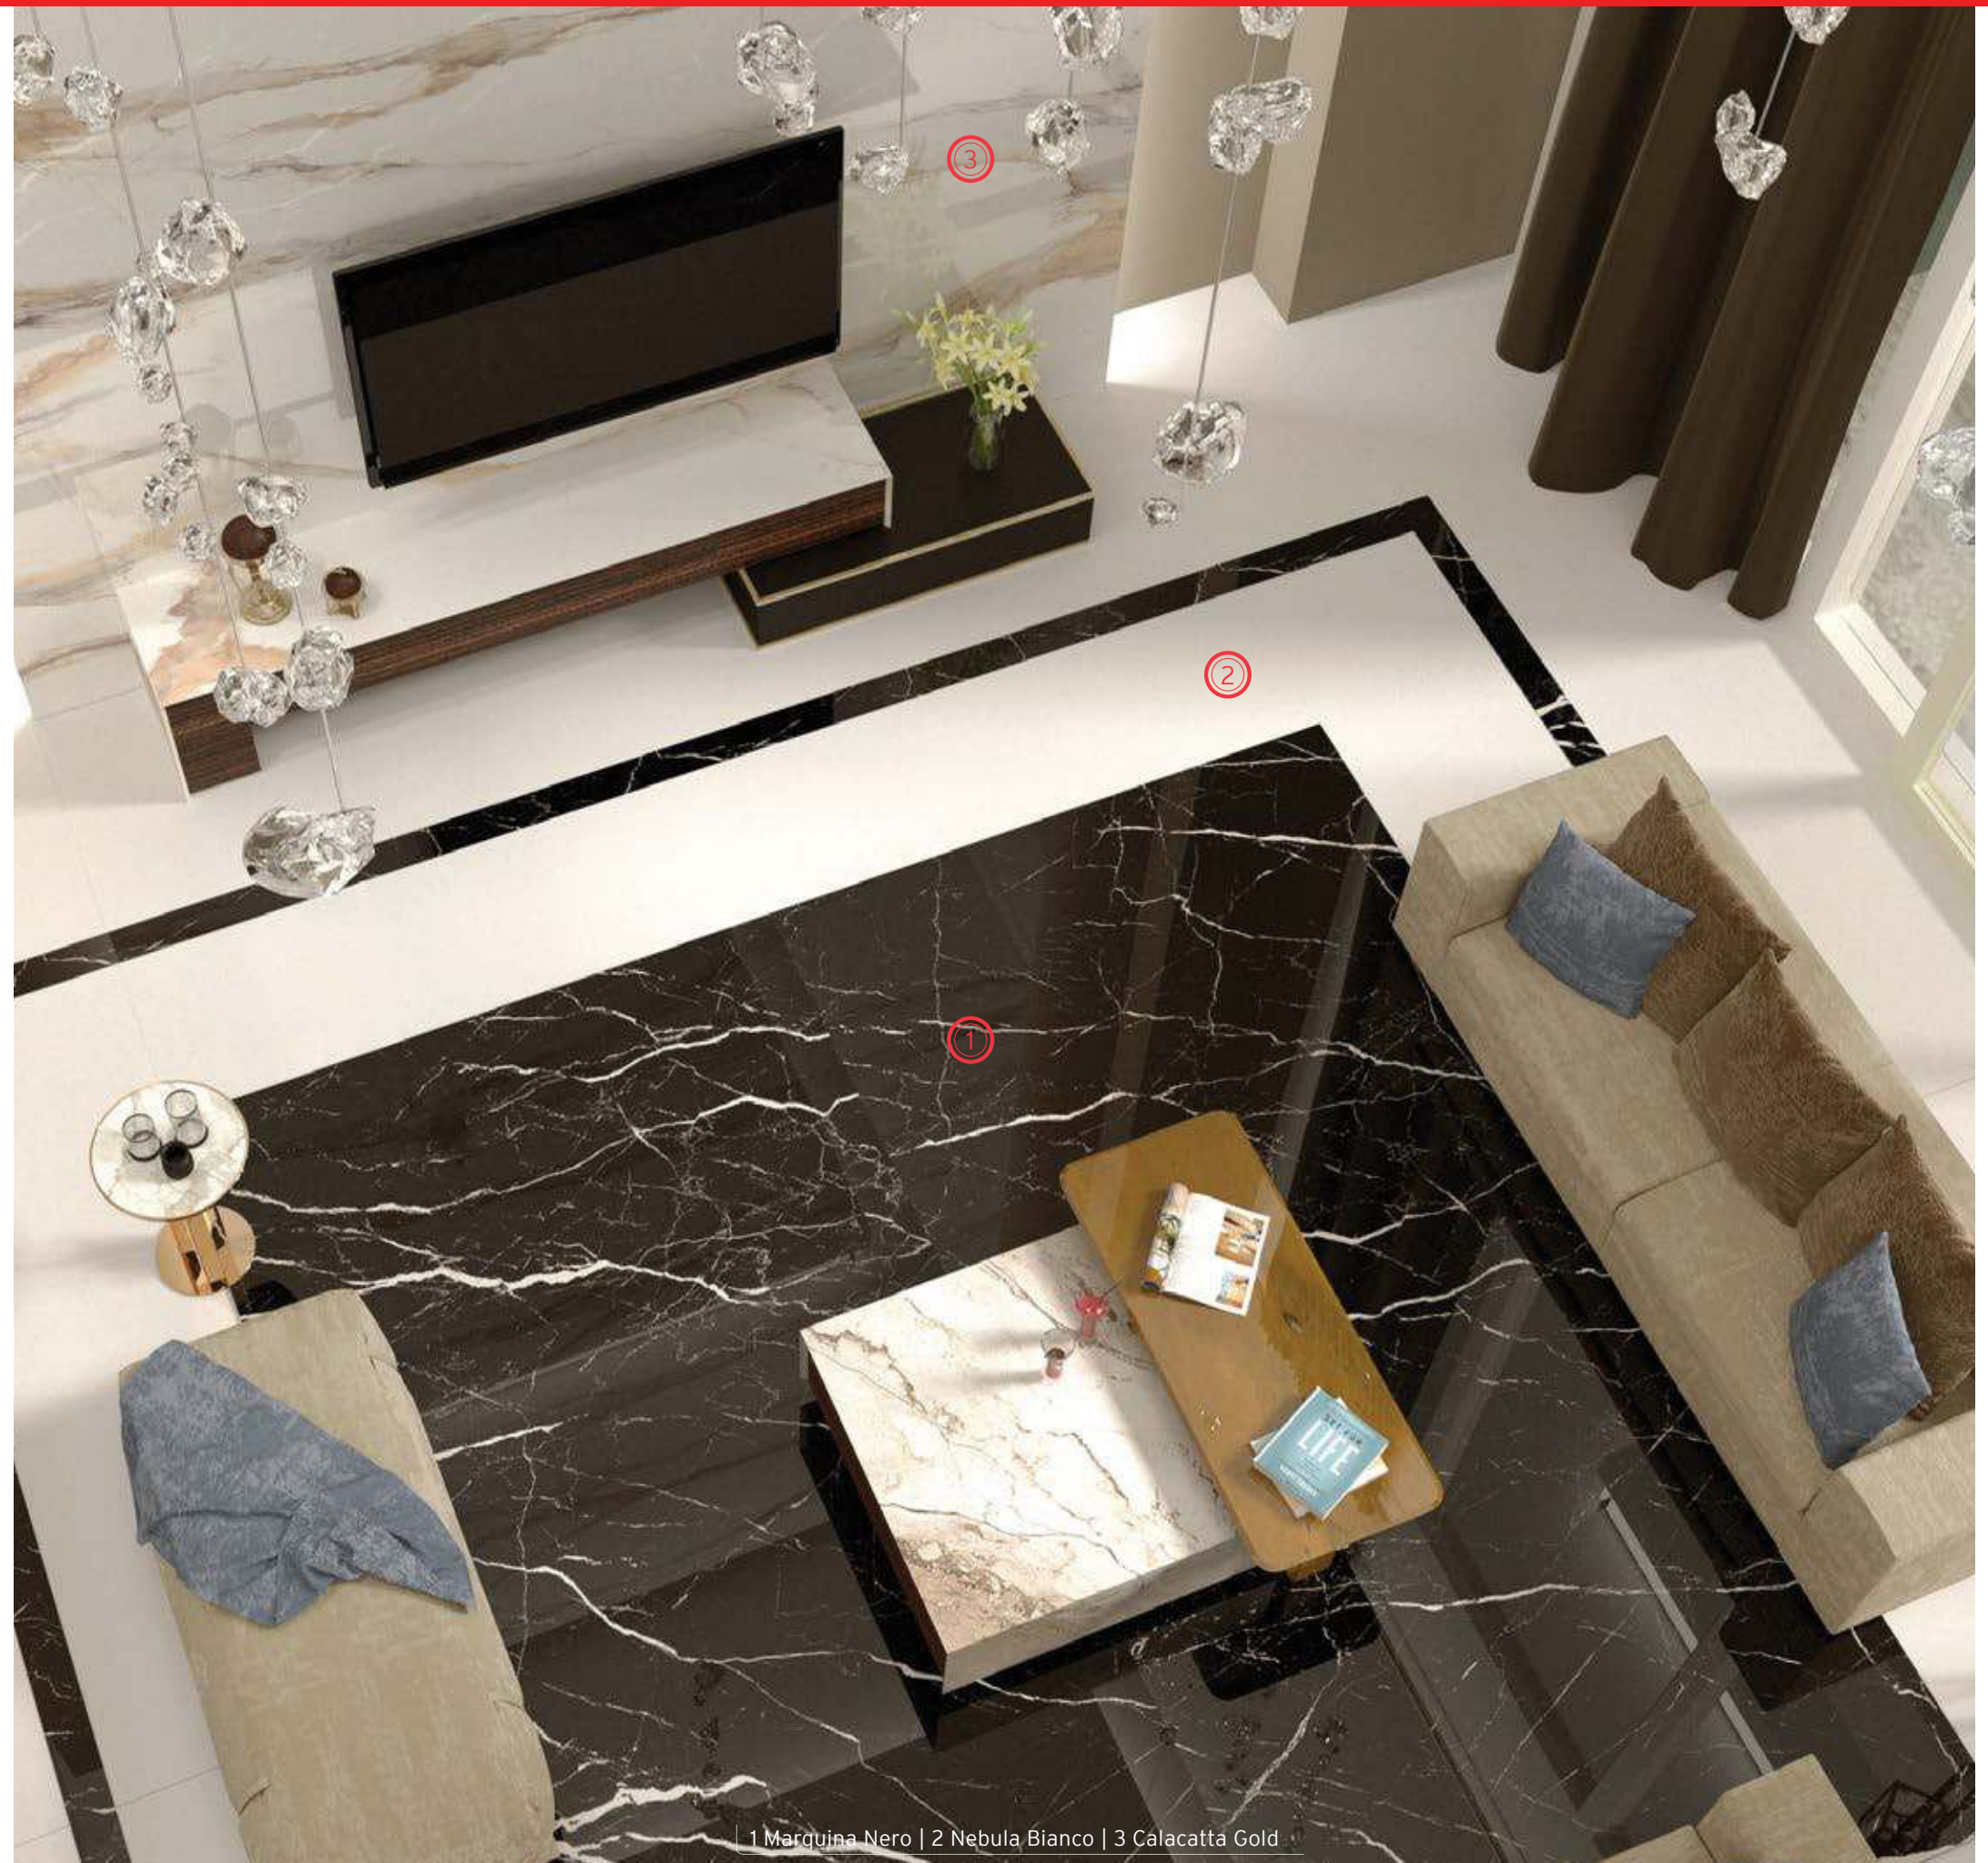

V3 - Moderate

The number of colors on each piece vary greatly significantly, but they do not differ greatly between pieces.

V4 - Substantial

Random color differences from piece to piece so that one piece may have totally different colors from another piece.

ULTIMATE QUARTZ

PURE ENERGY

It is often a popular option for people who are looking to give a more natural, earthy look to an ambiance. It is mostly found in earthy tones, but can also be found in brown, grey, and black hues. It can range from solid hues to crystalline glittering, adding a new depth to the atmosphere.

INDUSTRIAL ARCHITECTURE

Concrete has an industrial, edgy feel about it. Images of former industrial warehouses converted into sun-drenched lofts or discarded machinery repurposed into exquisite accent pieces typically come to mind when people think of a concrete finish.

ULTIMATE METAL

LIFETIME APPEAL

The design of the Metal collection by QUADRA was influenced by the historical significance of iron and bronze in the development of human civilization. Iron once marked the beginning of a Modern Era while bronze found itself as part of a more sophisticated part of society. Bronze was introduced to the arts due to its distinctive acoustic and sculptural properties.
