INSTALLATION GUIDE

1

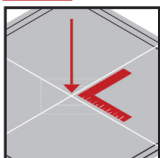

Open the box and check the tiles condition.

2

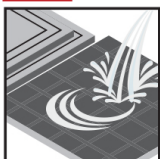

Arrange the tiles to obtain the best decorative effect.

3

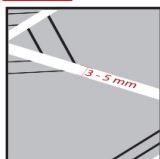

Make some line guides on the surface and make sure the lines form a 90 degree angle on each corner.

4

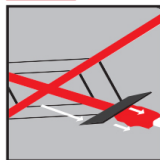

Wet the back of each tiles before setting them in.

5

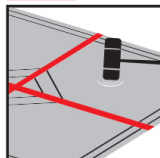

Make some spaces between tiles; 3 mm for exterior wall tiles, 1,5 mm for interior wall tiles, 3 - 5 mm for floor tiles, and 5-15mm for imitation stone tiles.

6

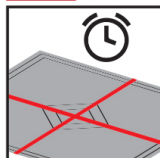

Apply grouts to fill the gaps between tiles and proceed to polish the surface.

7

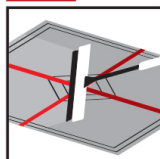

Press the tile gently to make sure it has firmly stuck.

8

Wait an hour before cleaning the excess cement or other material on the tiles.

9

After 24 hours, you can proceed with washing tiles.

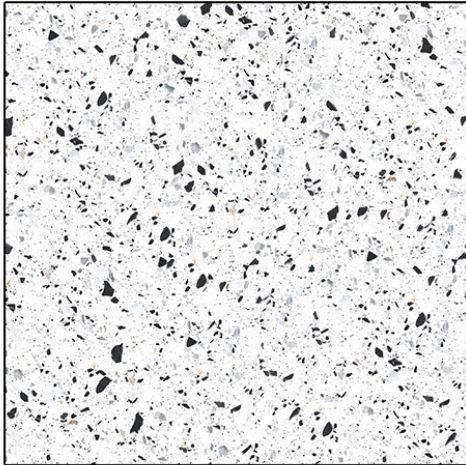

10

Done.
